*Candidate for the French presidency in 2012*

IAEA

Mr Herman NACKAERTS  
Vienna International center  
PO BOX 100  
1400 WIEN  
AUTRICHE

Hello,

I am running for President in 2012 as a spiritualist candidate for the forthcoming French election.

In order to mitigate the forthcoming nuclear crisis, I made several propositions for the nuclear field, advised by discarnate spirits, that could be of interest to you.

3 propositions in my enclosed program (number 42 to 44 page 38) relate to this matter.

I have translated them in English for you:

*Proposition 42* : we should develop investments in nuclear fission instead of nuclear fusion.

*Proposition 43* : in order to prevent the damages that will be caused by the possible devastating seismic activity we could forecast technical scenarios of shutting down all nuclear facilities in case of widespread changes on the crust of the earth.

*Proposition 44* : We could foster the idea of putting all nuclear facilities under the leadership of the IAEA. Countries dwelling nuclear facilities would give the ownership of their facilities to the IAEA. In return, the IAEA would manage the facilities, giving all countries the up-to-date technology and monitoring the development of this energy.

Thank you and my best wishes for the continuation of your work.
